

Centralize all corporate legal processes in one solution!

stp Knowliah empowers corporate legal departments to streamline processes, mitigate risks, and optimize cost-effectiveness. How?

Through centralization of all legal processes, from contracts to matters, Knowliah ensures that critical information is never lost, enhancing efficiency and effectiveness. All future proof legal departments deliver high-quality legal services to the business, thanks to Knowliah's intelligent, AI-driven platform.

Sounds familiar?

Are your legal processes primarily manual, with limited use of digital tools or technology?

You are using basic digital systems now, but they are not fully integrated or optimized?

Your focus is to establish a foundation for digitalization and identify areas within legal for improvement?

Have you nodded at least once to one of the above statements?
Then you are ready to kickstart the digital transformation for your corporate legal department!

Package Overview

Meet the Knowliah Standard Edition – the perfect first step for legal departments transitioning to a digitalized workflow. Say goodbye to cumbersome paper-based processes and hello to streamlined efficiency, with modules like Contract Lifecycle Management, Document Management, Matter Management and many more.
